PRESS NOTE

Five year plan - local development works.

As stated in paragraph 14 of Chapter IV of the First Five year Plan, a lump sum provision of Rs. 15. crores is being made in the Central Budget for local development works. A sum of Rs. 3 crores has been provided in this account in the budget for 1953-54 and further provision may be expected in the two succeeding years. The intention of Government is to create interest on the part of as wide a section of the Community as possible and to draw forth the local initiative and resources of the people for such projects. These will mainly be in the nature of local development works, especially in those parts of the community which do not stand to benefit directly from schemes already included in the Five year plan.

2. The amount of 3 crores is distributed between two classes of schemes, one to be forwarded by Local bodies to the Central Government through the State Government and the other to be forwarded by local bodies to the Central Government direct. The first class of schemes covers Rs. 2. 5 crores and the second class Rs. 50 lakhs. These amounts are for the whole of India. Out of the above allotment of Rs. 2. 50 crores, a sum of Rs. 6.50 lakhs has been set apart for schemes in the Travancore- Cochin State .

It is proposed to utilise the allotment of Rs. 6.5 lakhs as follows — Schemes may be prepared by local bodies like Municipal Councils, Panchayats and Group organisations like the Bharat Sevak Samaj. Such schemes must be examined by a Committee of non-officials to be constituted for each District and a list forwarded to the State Government who will forward it to the Central Government. This Government have directed the District Collectors to collect schemes from the local bodies and organisations. Preference will be given to areas which are not already benefited directly from schemes included in the Five Year Plan. Local effort must also be forthcoming in the form either of cash or of voluntary labour, to supplement the funds provided by the Government.

The scheme will be financed in the following manner. Fifty per cent of the cost of each scheme will be met by the voluntary contribution from the beneficiaries of the scheme. The other fifty per cent will be met by the Central Government, the State Government, and the local bodies. It is hoped that local bodies and associations interested in constructive work will utilise this opportunity to sponsor schemes for the benefit of the public of the State.
